Career goals

Short-term goals:

- Improve knowledge of software testing processes, tools, and methodologies.
- Gain practical experience in manual and automation testing through real-world projects.
- Enhance teamwork, problem-solving, and bug analysis skills to ensure product quality.

Long-term goals:

- Become a professional QA Engineer with expertise in automation testing frameworks and performance testing.
- Take part in leading large-scale testing projects and mentoring new testers.
- Contribute to building efficient testing strategies that improve overall software quality.

Skill

Education

information technology 2024 - 2027

Thu Duc College of Technology

Education Summary:
During my studies in Information Technology with a major in Software Testing, I gained solid knowledge of software development life cycles, testing methodologies, and quality assurance processes.
I learned to design and execute test cases, report bugs, and use testing tools such as Jira and Selenium.
Through practical projects and teamwork, I developed analytical thinking, attention to detail, and a passion for ensuring high-quality software products.
GPA:3.7/4

Work experience

QA Engineer (Manual & Automation Testing) 2024 - 2025

ShopNow

Performed manual testing on e-commerce features such as shopping cart and checkout.
Identified, reported, and tracked bugs using Jira.
Verified application features met functional requirements.

QA Engineer (Manual & Automation Testing) 2025 - 2026

EasyBooking

Tested Android booking application features and validated API responses.
Designed and executed test cases to ensure functionality.
Reported defects and collaborated with developers for resolution

Project

2024 - 2024

-ShopNow: Tested e-commerce features like cart and checkout, reported bugs with Jira.
-EasyBooking: Tested Android booking app functions and API responses.
-AutoTestDemo: Automated login and registration tests using Selenium.

Interest

- Exploring new software testing tools and techniques
- Analyzing and improving software quality

Certificate

2024 Certificate of Completion in Software Testing – Aptech

2025 TOEIC 450

2025 Certificate in Automation Testing with Selenium – Coursera

Manual and Automation Testing

Test Case Design and Execution

API and Database Testing

Titles and awards

2024 Outstanding Student in Software Testing

2025 Academic Excellence Award in Information Technology
